In the Wider Public Interest

The Industrial Relations Society of Victoria Inc has the great pleasure of inviting you to attend the 2002 Convention to be held at the Melbourne Zoo. The theme is “**In the Wider Public Interest**” and we will be exploring various aspects of how a unitary system may benefit employers and workers with a focus on the Victorian industrial relations system, as well as developing the issue of equal pay for work of equal value.

We have a great line-up of speakers that will provide a stimulating and informative cross-section of industrial relations thinking. Our keynote speaker is Justice G.M. Giudice, President of the Australian Industrial Relations Commission, who will be speaking on a Unitary IR system. Other speakers include experienced practitioners from union, management and the legal fraternity and members of the Australian Industrial Relations Commission.

The Convention will canvass serious topics, which will no doubt impact our lives and the industrial relations arena in which we are all a part. There will also be plenty of opportunity to relax and laugh along with industrial relations colleagues at the Great Debate and over dinner in the magnificent fauna and flora surroundings of the Melbourne Zoo.

We look forward to seeing you at the Victorian Convention 2002.

Michael Butler
President IRSV
